

ATD-3665

R1234yf Self-Sealing Design Recharge Kit

Owner's Manual

FEATURES

- Charge A/C systems using R1234yf self-sealing/reusable designed cans

SAFETY WARNING AND PRECAUTIONS

WARNING: Wear safety glasses

WARNING: Make sure hose has been purged or vacuumed before use.

The 1990 amendments to the United States Clean mandate that all personnel who service refrigerant systems must be trained and certified. Fines are in place for violations and compliance is now being monitored by the U.S. EPA.

OPERATING INSTRUCTIONS

1. Connect can tap fitting to hose and coupler assembly.
2. Connect refrigerant can to the bottom of can tap, turn counterclockwise.
3. Turn handle clockwise to depress the valve in can to flow refrigerant.
4. First time use, purge air in hose.
5. Connect coupler to low side of system, refrigerant will flow into the system.
6. Properly discard can when empty.
